EXECUTIVE SUMMARY

System-driven Growth Operations Strategist with 5+ years of experience replacing disconnected marketing operations, social posting noise, and ungoverned AI rework with structured distribution infrastructure. Proven track record of connecting organic reach directly to lead capture and sales velocity—building autonomous content engines that maintain enterprise brand voice without senior oversight.

KEY IMPACT HIGHLIGHTS

- **66 [ICON](#) Transactions:** Supported marketing and pipeline operations influencing 66 closed deals across back-to-back award years (38 Year 1; 28 Year 2)
 - **5,595 LinkedIn Reach:** Scaled organic LinkedIn impressions from 512 to 5,595 *without paid ad spend*.
 - **3,398 Local Search Views:** Generated 3,398 Google Business Profile views and 472 direct customer interactions.
-

PROBLEMS I SOLVE

- **Disconnected Marketing:** Re-architecting siloed social feeds into intent-driven authority hubs that fuel B2B pipeline growth.
 - **Ungoverned AI Rework:** Installing custom system instructions and evidentiary anchors to eliminate brand drift and manual editing.
 - **Knowledge Fragility:** Packaging channel workflows into version-controlled SOPs so the organization owns the operational engine.
-

CORE COMPETENCIES & OPERATIONAL GUARDRAILS

- **B2B Pipeline Architecture:** Converting organic reach into searchable buyer trust and pipeline velocity.
- **Search-Optimized Authority:** SGE & AI Engine Discovery (Gemini, ChatGPT Search) optimization.
- **AI Governance & QC:** Engineering prompt architectures, RAG knowledge bases, and evidentiary anchors.
- **Process Documentation:** Building version-controlled SOP playbooks that eliminate onboarding lag.
- **GTM Alignment:** Connecting social content strategy directly to lead capture and sales enablement.
- **Cross-Departmental Coordination:** Frictionless alignment across product, sales, creative, and legal teams.

PROFESSIONAL EXPERIENCE

Rubicon X Media | Visibility Strategist | August 2020 – Present

- **AI Governance & Asset Automation:** Programmed persistent system instructions in Claude and built custom Gemini Skills (formerly Gems) to automate brief generation, message mapping, and publication-ready drafting.
- **Operational Infrastructure:** Installed a 6-step framework ('Find → Connect → Build → Execute → Measure → Document'), centralized asset directories, and standardized vendor intake pipelines to eliminate managerial overhead.
- **Quantified Outcomes:** Eliminated administrative bottlenecks for scaling clients, improved asset delivery speed by 35%, and built autonomous distribution pipelines running reliably without founder intervention.

Alpine Legacy / eXp Realty | Marketing Director | December 2022 – November 2025

- **Multi-Channel Search & Content Alignment:** Directed remote agents and creative stakeholders across carousels, newsletters, and short-form video. Connected organic social channels directly to Google Business Profile search discovery and local SEO engines.
- **Scale & Audience Reach:** Scaled LinkedIn reach from 512 to **5,595 impressions** (+992%), driving **3,398 Google Business Profile views** and **472 direct customer interactions**.
- **Revenue Impact & Market Resilience:** Supported pipeline operations influencing **66 closed transactions** (38 deals in Year 1; 28 deals in Year 2 during the 2024 real estate market contraction), earning back-to-back [ICON](#) National Awards through resilient SOPs.

READY-TO-DEPLOY OPERATING FRAMEWORKS

- **System 01: [Ghost Town Audit](#) - 30-Day Forensic Diagnostic**
 - A 30-day forensic diagnostic framework used to audit internal communication gaps, identify broken brand touchpoints, and uncover dormant digital assets across corporate social channels and knowledge silos.
- **System 02: [Authority OS](#) - Plug-and-Play Brand Operating System**
 - An integrated internal operating framework connecting creative content pipelines, search generative discovery, and custom AI governance tools. Establishes documented, repeatable workflows that maintain enterprise brand standards without senior management oversight.

ADVANCED AI AND OPERATIONAL STACK

- **AI Governance & Prompt Engineering:** Deployment of system prompts, Claude system instructions, and custom Gemini Skills (formerly Gems) with strict evidentiary anchors to prevent hallucination and narrative drift.
- **LLM Execution & Operations:** Deep execution across Claude, ChatGPT, Gemini, and Copilot for data parsing, competitive asset analysis, and SGE keyword mapping.
- **Creative & Workflow Stack:** Canva, CapCut, Google Workspace, GitHub, Google Flow, Gemini Notebook, Notion/SOP Knowledge Repositories.
- **Technical Infrastructure:** Windows 11 | i5-11400H @ 2.70GHz | 16GB RAM | 4GB GPU | 954GB SSD | Dual-redundancy fiber+DSL | Dual monitors.

OPERATING PHILOSOPHY

- **Context-First:** Business goals and operational constraints are fully mapped before content creation begins.
- **Systems Over Campaigns:** Installs compounding distribution infrastructure and reusable SOPs over one-off viral tricks.
- **Zero Friction:** Sequence-ready documentation and proactive executive reporting minimize management noise.
